

ABHIGYAN NATH

Full Stack Developer · Cybersecurity Enthusiast (TryHackMe Global Top 6%)
abhigyanath8@gmail.com | +91 8147288920 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [TryHackMe](#)

PROFESSIONAL SUMMARY

Full Stack Developer and MCA candidate with production web apps in JavaScript, Node.js, Express.js, and MongoDB, plus live freelance client sites. TryHackMe Global Top 6% security learner skilled in responsive UI, REST APIs, web security, and SEO/deployment best practices.

TECHNICAL SKILLS

Languages & Frontend: JavaScript, HTML5, CSS3, PHP, Responsive Design, UI Design, React (basics)

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Mongoose, SQL

Security: Kali Linux, Burp Suite, Wireshark, Nmap, Web Security, Vulnerability Analysis, Network Security, Ethical Hacking (TryHackMe labs)

Tools & Deployment: Git, GitHub, VS Code, Vercel, Netlify, Render, Google Analytics, SEO

Also familiar with: Python, Power BI, Data Analytics, AWS (basics)

PROJECTS

Management Quota — Admission Counselling Web Platform

HTML, CSS, JavaScript, PHP, SEO

- Built a multi-stream admission-counselling site (Engineering, B.Arch, BAMS, BPT, Pharmacy) with individual college pages and a college-comparison tool.
- Added callback/enquiry forms, WhatsApp & call CTAs, a four-step counselling flow, and SEO-optimized responsive pages.
- Live: rosybrown-raven-453593.hostingersite.com

Bangalore EduConnect — Freelance Web Project

HTML, CSS, JavaScript, PHP, SMTP, SEO

- Delivered a responsive education-consultancy site for engineering-admission guidance in Bangalore (college listings, contact and policy pages).
- Built enquiry workflows (forms, WhatsApp/call CTAs, SMTP email) with SEO metadata, sitemap, robots.txt, and Google Analytics.
- Live: bangaloreeduconnect.com

Smart Inventory Management System — Full-Stack Web App

Node.js, Express.js, MongoDB, Mongoose, Chart.js

- Built a full-stack inventory system for lab assets with CRUD, search/filter/sort, low-stock alerts, and activity tracking.
- Added dashboards, JSON/CSV export & import, printable reports, and theme support for desktop and mobile workflows.
- Live: smart-inventory-management-system-3csy.onrender.com

Personal Developer Portfolio

HTML, CSS, JavaScript, SEO

- Responsive portfolio of projects, certifications, and security learning. Live: codebygyan.xyz

INTERNSHIPS & EXPERIENCE

Web Development Intern — CodSoft

April 2024

- Built responsive frontend projects in a 4-week program, strengthening HTML, CSS, JavaScript, and mobile-first layout skills.

Data Science / AI & Data Analytics Intern — YBI Foundation

May – June 2024

- Worked through Python, SQL, machine-learning fundamentals, and Power BI on guided, project-based data/AI and analytics tasks.

EDUCATION

Master of Computer Applications (MCA) — Assam down town University (Ongoing)

2025 – 2027 | CGPA: 8.0

Bachelor of Computer Applications (BCA) — IFIM College, Bangalore University

2021 – 2024 | CGPA: 7.0

CERTIFICATIONS

Offensive Security Operations (Cybrary) · Cyber Security 101 & Pre Security Paths (TryHackMe) · Learn Ethical Hacking From Scratch (zSecurity) · Back-end Development with Node.js & Express (IBM/edX) · Introduction to Front-End Development (Meta/Coursera) · Web Development with HTML5, CSS3 & JavaScript (IBM/edX)

ACHIEVEMENTS & PROFILES

- 1st Prize** — Robot Challenge at the 2-Day Robotics + IoT Workshop, Robotics & Gaming Club, Assam down town University (April 2026).
- Top 5 Finalist** — CodeSprint full-stack development hackathon, Davinci Coder Club, Assam down town University (April 2026); problem statements solved on the spot.
- TryHackMe Global Top 6% (username **cybercoder31**) — active across foundational, security analyst, security engineer, and penetration testing paths.
